The Herald's special says the Spanish Minister, while not denying the reported offer of Cuba to the United States, says he has not been notified by his government.

There are five treaties now under consideration by the committee on foreign relations. None of these will be referred to the Senate until after the recess.

Several Democratic members from the West, whose choice for the Presidency was hitherto best known, have now decided, and over evenings spent privately in favor of Gen. Hancock. The movement in this direction acquires every day more strength.

A number of prominent Democrats last evening, discussing the merits of various places for holding their national convention, chose New Orleans.

John P. Hale, minister to Madrid, it is said, will be nominated minister to Austria.

The Senate Finance Committee, it is said, will modify financial measures so as to allow a tax of about one per cent to go to the States at the same time as the excise, and the rate will not compromise the value of the bonds as a source of investment. It is thought, will satisfy the Republicans through the country and secure their united support.

Brown and Tripp, contestants in the election, do not yet know what will be awarded seats in the House.

The World's special says the Government on ways and means find that the revenue will be \$65,000,000, whereas the expenditure will be \$75,000,000, whereof the difference will be made up by the sale of bonds.

At a small sale to-day of real estate and railroad stocks sold at remarkably low figures. The land sold at from five cents to twenty cents on the dollar.

New York, Dec. 17.

The Advertiser contains reliable information of the arrest of George Shorer, a negro of this city, who was the leader of a gang of negroes, organized for the purpose of robbing the black market.

Shore's claims to be from Illinois or one of the Northern States, and says he was Redick of the negroes, or the black marksmen.

He will go then certain. Capt. Holtcott is the "King of the negroes." Capt. Holtcott is the "King of the negroes."
